

# Relative Risk of Students of Color for Zones of Resegregation

**ZONE 1**      **Students with resources (R)**      **Students experiencing structural inequality (SR)**      **Baseline (RRI = 1.0)**

**Children with IEPs**      **Outside Gen. Ed. — 20%-60% of day**      **Outside Gen. Ed. — 60%+ of day**

Note: R = students with resources; SR = students experiencing the structural inequality of resources.  $RRI = (\text{students labeled with a disability in subgroup} \div \text{total students in subgroup}) \div (\% \text{ of white girls with resources expected to be identified, set per zone})$ .
